

### A Spring shelf support

- For Ø 5 mm hole
- Wood shelf support slots into the shelf by making edge borings
- Consists of a plastic sleeve with a spring inside, which clicks the pin in and out
- Intentional leeway of the smooth pin doesn't damage the holes and allows to easily find off-lines holes

**Item A.**  
 Catalogue shows  
 white finish correct  
 finish is light grey

It is easy to adjust the position of the shelf; just pull back the self-locking clips, to click the pins out of the holes

Finish	Cat. No.
Light grey	282.84.500
