Kitchen Fittings and Accessories

Rotary larder units rotate through 90° in either direction, allowing full access to the contents of every basket.

A safety mechanism locks the runner when the unit rotates, to prevent the unit from closing until the frame is moved back in-line.

Integrated damping ensures quiet, smooth closing of the pull out.

Available with chrome mesh baskets.

Cabinets are not included.

Chrome mesh baskets - rotary larder unit with chrome plated steel mesh baskets.

Power move® electric motor

- For use with larder units shown on pages **8-11**
- Order adaptor separately when used with rotary larder units shown on page **11**
- Can be retro-fitted
- Fixings included
- Drive control is dependent on load and will adjust itself automatically
- By lightly pulling or pressing the cabinet front the electric motor is triggered to open the larder unit
- Rubber minimises the amount of noise transmitted to the cabinet
- Safety stop: Pull out movement is stopped if larder unit touches person or object in the way
- If power fails, the larder unit can be used like a normal pull-out unit
- Grey plastic

| | Cat. No. |
