

A PU construction adhesive

- A polyurethane adhesive for the construction bonding of most types of building materials
- Particularly suited for bonding dampened timber (up to 30% humidity)
- Non drip, suitable for vertical seams
- Solvent free
- D4-EN204 grade
- Foams up slightly, fills gaps
- 310 ml tube
- Gun is shown below right

Colour	Cat. No.
Transparent	003.52.020

Order qty: 1 pc

B PU40FC Adhesive

- Flexible gap sealant and adhesive based on polyurethane
- Good adhesion to various surfaces
- Permanently elastic
- Weather resistant
- Vibration proof
- Excellent resistance to chemicals
- High resistance against tearing
- Especially suited to seal and bond metal constructions
- 310 ml aluminium tube
- Gun is shown right

Colour	Cat. No.
White	003.52.010
Black	003.52.030

Order qty: 1 pc

C Assembly adhesive, solvent free

- Especially suited to bond wall and floor material to base constructions, wood, concrete, stone and metals
- Resistant against humidity (not continuous exposure to water)
- Good filling characteristics
- Sticks to all common surfaces (not PP and PE)
- Paintable
- 310 ml tube
- Gun is shown below right

Colour	Cat. No.
White	003.50.100

Order qty: 1 pc

D Mirror bonding adhesive

- Used for fixing mirrors on all usual building surfaces
- Apply primer for certain applications on porous surfaces, no primer required for non porous surfaces
- 310 ml tube
- Gun is shown right

Colour	Cat. No.
Light grey	003.50.090

Order qty: 1 pc

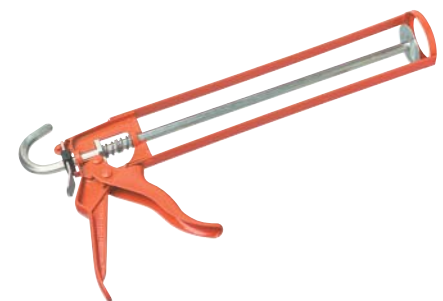

E Epofix epoxy glue

- A fast curing 2K-Epoxy adhesive
- Easy to use dual cartridge
- Fast curing
- High strength
- Fast strength development
- Suitable for bonding a wide variety of materials including porcelain, metals, ceramic, glass, plastics
- 24 ml cartridge

Colour	Cat. No.
Translucent	003.04.008

Order qty: 1 pc

F Gun

- Finished steel, colour may vary
- For use with sealants and adhesives shown on pages 91-95

	Cat. No.
Gun	006.79.110

Order qty: 1 pc

G Spare nozzle

- Plastic

Colour	Cat. No.
White	003.50.051

Order qty: 1 pc
