

Symo 3000 cylinder cores can be installed, repositioned or replaced quickly without tools, simply by using the removal key

Inserting the cylinder core

Remove protective cap from cylinder housing

Push the cylinder core with the inserted key into the cylinder housing

Exert light pressure until cylinder core snaps into place

Removing the cylinder core

The cylinder core can only be removed from the cylinder housing by using the removal key

Insert the removal key into the cylinder housing and withdraw under slight pressure
