

• Spax screws

- For use in wood, chipboard, plastic or sheet metal
- **Features:**
 - Multihead penetrates flush to the surface: Mills into wood, stops at metal
 - Patented shaft profile - right to the tip for fast, secure fastening of screws
 - 4CUT tip: Square shaft separates wood fibre - no pre-drilling required and no splitting
 - Yellow passivated finish - passivated coating offers greater resistance to corrosion
- Refer to table right for driver bits selection guide

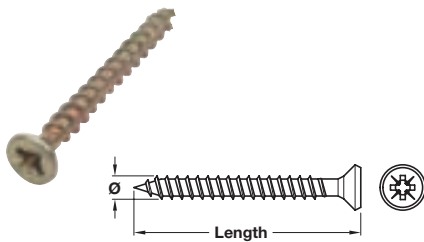

Please order screws in multiples of order quantity shown.

Driver bit selection guide

Pozi bit head
